ADVANCED MADE SIMPLE FOR YOU

Advanced Scanning
Advanced Cloud Computing
Advanced Integration to Enterprise Systems
Advanced Adobe Integrations

Business can be simple
The new imageRUNNER ADVANCE C5200 series improves on our top-range multifunctional devices. From a simple, intuitive interface to enhanced document capabilities, the updated series is even faster than before - all without compromising on quality. Add to that cloud capability and holistic document solutions and you can see why the imageRUNNER ADVANCE series gets its name.

And that’s the way your business should be. Simply advanced.
The imageRUNNER ADVANCE C5200 series has been designed from the onset to offer you the following:

- **ADVANCED** Environment Responsibility for our future.
- **ADVANCED** Management that puts you in control.
- **ADVANCED** Usability and Convenience that is centered on you.
- **ADVANCED** Print Quality that makes you look good.
- **ADVANCED** Security to protect your critical documents.
- **ADVANCED** Scalability that grows with you.
- **ADVANCED** Workflow to suit your needs.
- **ADVANCED** Productivity you can count on.

Find out how we have made Advanced technologies work simpler for you.
Intuitive User Interface

You will notice the large, full-color 8.4" high resolution TFT screen that boasts wide viewing angles and exceptional clarity. The Main Menu gives you instant access to all your system functions, letting you configure the number and size of icons, and even the wallpaper on the menu screen. You can even tailor it to suit individual or workgroup preferences. Quick Menu allows you to accomplish more in less time by streamlining complex, frequently used settings and workflows to be saved and run at the touch of a single button.

Maintain Your Productivity

The imageRUNNER ADVANCE C5200 series is designed to keep your business going. Our innovative toner system allows you to change out toners even during printing. The inbuilt paper sensor is also intelligent enough to detect paper sizes accurately, reducing paper jams and misfeeds.

Step-by-step Tutorial

The inbuilt onscreen tutorial helps you explore the full capabilities of the imageRUNNER ADVANCE C5200 series, and enables you to learn and use more advanced functions with ease.

Walk Up Convenience

The imageRUNNER ADVANCE C5200 series comes with a USB port that lets you scan to or print* files directly from your USB drive or memory card at the device.

* Optional accessories are required for print.
Quality prints that truly shine.

**High Resolution Brilliant Printouts**

Combine the E-drum imagePRESS technology with a 1200x1200 dpi printing resolution, you get highly defined printouts, image consistency and high speed printing. Matched with the pQ Toner and an intelligent controller, the imageRUNNER ADVANCE C5200 series truly brings you the crispest, most vibrant color printouts.

**ADVANCED imageCHIP System Architecture**

Canon’s dual processor system meets the rigorous demands of today’s businesses. The image processor board works with the scanner, adjusts images and provides superior image processing. In tandem, the information processor controls the user interface and coordinates device networking and connectivity. Together, they give you better results with lesser wait.

**Fiery Print Controllers**

For an exceptionally high level of productivity and advanced color management workflow control, get the powerful Fiery print controller options – imagePASS-B2 and ColorPASS-GX400*. Both controllers are Variable Data Printing (VDP) ready and support a variety of VDP languages.

* Only for iR-ADV C5255

**Genuine Adobe PostScript 3**

The imageRUNNER ADVANCED C5200 series supports Genuine Adobe PostScript 3 printing capability. This enables you to deliver the desired printout quality without worries of font incompatibility. Work seamlessly with Postscript workflow and achieve faster, higher quality printouts – not just emulations. Direct PDF printing and full support of Adobe fonts also translates to improved office productivity.
Advanced technology becomes simple with the Canon imageRUNNER ADVANCE. Simply add the modular units you need to further extend the functions of your device.

4-Line Fax
Add on Super G3 fax functionality for high-speed fax transactions. The 4-line fax feature is capable of handling large volumes of fax documents, while ensuring lesser busy signals and greater connectivity. You can also save cost and space by installing the optional Remote Fax Kit that lets you fax through other fax-capable imageRUNNER ADVANCE devices in the network, even if the one you are using does not have a fax board installed.

High Speed Scanning
Canon’s revolutionary Duplex Color Image Reader features a proprietary image sensor that allows you to create 100 to 150 crystal-clear reproductions of black & white and color documents each time you press the button.

Professional Looking Documents
Impress your business associates and colleagues alike with professional-grade documents. Select the settings you want, ranging from automatic stapling, punching, collation and even booklet creation function. For a compact footprint, internal stapling and collating units are also available as options.
**Advanced Workflow**

The Canon imageRUNNER ADVANCE series is designed to streamline workflow and meet each user’s needs. You can easily send, save, store, and access scanned documents in multiple locations. Simply select a destination and scan the original. With the imageRUNNER ADVANCE series, you will find the most advanced, yet simple workflow.

**Scan and Send**

In one simple operation, you can distribute scanned documents to multiple destinations, such as email, fax destinations and network folders. The wide range of formats* includes standard High Compression PDF, Adobe PDF Reader Extensions, Searchable PDF, Encrypted PDF, XPS, and even the latest Office Open XML for Word and PowerPoint.

* Installation of optional accessories may be required.

**Store and Access**

The imageRUNNER ADVANCE comes with a document sharing solution simply makes sense. Using the Advanced Box, multiple users can share any file formats on a share folder and access files from PCs or other networked imageRUNNER ADVANCE systems. For more sensitive documents, you can use Personal Folders. The Mailbox feature also lets you access the stored documents from the device or remote user interface, with up to 100 user accounts.

**Canon Cloud Connect**

Canon imageRUNNER ADVANCE series maximizes office productivity by allowing users to access Cloud services right from the devices. Users can scan and store their paper documents, or choose to retrieve and print their documents stored in their Cloud service. With the Cloud Scan and Cloud Print support of Google Docs and Microsoft SharePoint Online, imageRUNNER ADVANCE systems are the perfect way to scan and print through Cloud services.

* Internet connection and upgrades may be required to support Cloud services, and Cloud services may vary by country or region. For more information, please contact your local Canon Sales Office.
ADVANCED MANAGEMENT AND SECURITY

Be in control, wherever you are. The imageRUNNER ADVANCE makes it easy to monitor and optimize your company’s output.

Centralized Remote Control

The Remote User Interface lets IT managers and system administrators control, track, and manage each output device without having to travel to each and every machine for status checks.

eMaintenance

Take control of your Canon device fleet and reduce administration burdens with eMaintenance*. With less downtime and easy maintenance, you will have longer uptime and greater productivity.

* Compatible with most Canon copiers, printers and multifunctional devices. For more information on what models are supported, please contact Canon.

Access Management System Kit

By utilizing the Access Management System Kit, administrators can restrict the functions that each individual, workgroup or department is allowed to use. Together with the contactless Card Authentication unit to identify the actual user, you will enjoy higher levels of security and reduced wastage from unauthorized prints.

ADVANCED SOLUTIONS

To achieve even more with the imageRUNNER ADVANCE system, select the document solution that best meets your organizational needs.

Therefore™

Therefore is a holistic document management system that offers an easy-to-implement storage and retrieval system to give every staff instant, secure access to all information.
uniFLOW is designed to save you time and money by providing effective controls over your entire print and multi-functional device fleet. The uniFLOW solution can be built from several different components depending on your needs.

iW Accounting Manager for MEAP

Track your organization’s print consumption through detailed and vital information of how your devices are actually used, all without the need for additional manpower or equipment.

eCopy PDF Pro Office

eCopy® PDF Pro Office, the latest enterprise-ready PDF solution from Nuance, is the smarter PDF desktop software companion to Canon MFDs. This powerful, easy-to-use PDF solution that lets you create, convert, and collaborate for increased productivity and cost savings.

iW Secure Audit Manager Express

This software enables document distribution oversight and safeguards against potential information espionage or abuse by logging text and image data whenever users utilize the device.

eCopy ShareScan Suite

eCopy® ShareScan Suite transforms paper-based data safely and directly into electronic workflows. From the imageRUNNER ADVANCE device, you can scan, extract, classify, index and convert paper information into digital information that flows effortlessly into and through the electronic channels of your business.

01 On-device imageRUNNER Agent captures log and image data

02 Info is sent to Express server for OCR, image and text exported

03 Express Audit Tools allows compilation and extraction of key info
Much of the above features are geared towards efficiency and waste reduction. At Canon, we believe in doing our part for the environment.

Higher efficiency means lower emissions. By optimizing the document life cycle, we have lowered CO2 emissions by more than 30% over previous models.

Here are some highlights:

Green technologies makes up the imageRUNNER ADVANCE. Our pQ toner lowers energy consumption by minimizing heat and power requirements. Our RAPID fusing technology saves 75% more power usage than previous models. The list goes on.

imageRUNNER ADVANCE uses 100% recycled plastic from past products. In addition, we subject ourselves to the most stringent standards, restricting the use of 24 hazardous substances (where EU RoHS directives restrict only six).

Changing our behavior to change our environment. By encouraging digital previews, we reduce unnecessary prints and reduce mistakes. Administrators can also help encourage use of duplex settings and control color usage easily.

Higher efficiency means lower emissions. By optimizing the document life cycle, we have lowered CO2 emissions by more than 30% over previous models.
Witness the significant improvement in your business communication capabilities. Move your business forward with the new imageRUNNER ADVANCE C5200 series today.

To arrange for a demonstration, simply contact any of our sales staff in the relevant contact overlay.
