Document Print and Copy Speed Measurement Conditions

Print and copy speeds listed below reflect measured values based on the international standard and are for reference only. ISO/IEC 24734 defines the default print speed measurement methods.

ISO/IEC 29183 defines the default copy speed measurement methods of a single, one sided original. (Without using ADF) ISO/IEC 24735 defines the default copy speed measurement methods. (With using ADF.)

Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.

Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc.

Speeds are calculated by rounding off the actual measurement value.

		Print Speed	Copy Speed	ADF Copy Speed
		ISO/IEC 24734	ISO/IEC 29183	ISO/IEC 24735
Measurement Method		<esat> (Estimated SAturated Throughput) [ipm] Print Word, Excel and PDF test files (4-</esat>	<sesat> [ipm] Copy 4-page PDF test files. Copy</sesat>	<esat> (Estimated SAturated Throughput) [ipm] Copy from ADF the 4-page PDF test</esat>
		pages/application). Print speed is calculated from time required to print a set (4 pages per 3 applications) of documents, plus additional sets in a duration of over 30 seconds and then	speed is calculated from time required to print 1 set (4 pages), plus additional sets in a duration of over 30 seconds and then average the result.	files. Copy from ADF speed is calculated from time required to copy a set of documents, plus additional sets in a duration of over 30 seconds.
		average the result. (Exclude time to print 1st set.)	to be tested. (Exclude time to copy the 1st page.)	The test files are printed with the printer to be tested. (Excluding time to print the 1st set.)
		<fsot> (First Set Out Time) [sec.]</fsot>	<sfsot> [sec.]</sfsot>	<fsot> (First Set Out Time) [sec.]</fsot>
		Print Word, Excel and PDF test files. Print speed is the time to print 1 set (4 pages per 3 applications) from clicking the 'OK' button to print.	Copy 4-page PDF test files. Copy speed is the time to copy 1 set (4 pages) from clicking the COPY button.	Copy the 4-page PDF test files. Copy speed is the time to copy 4 pages loaded in ADF, from clicking the COPY button.
		(Include processing time.)	The test files are printed with the printer to be tested. (Include the processing time.)	The test files are printed with the printer to be tested.
Test Pattern	Туре	Word Excel PDF	PDF	PDF
	Size	A4, 8.5"x 11"	A4, 8.5"x 11"	A4, 8.5"x 11"
