 **imageRUNNER**
5055 / 5065 / 5075

Multifunction

Business *Can* be simple

EXCEPTIONAL PERFORMANCE AND RELIABILITY

PROFESSIONAL QUALITY RESULTS AT POWERFUL SPEEDS

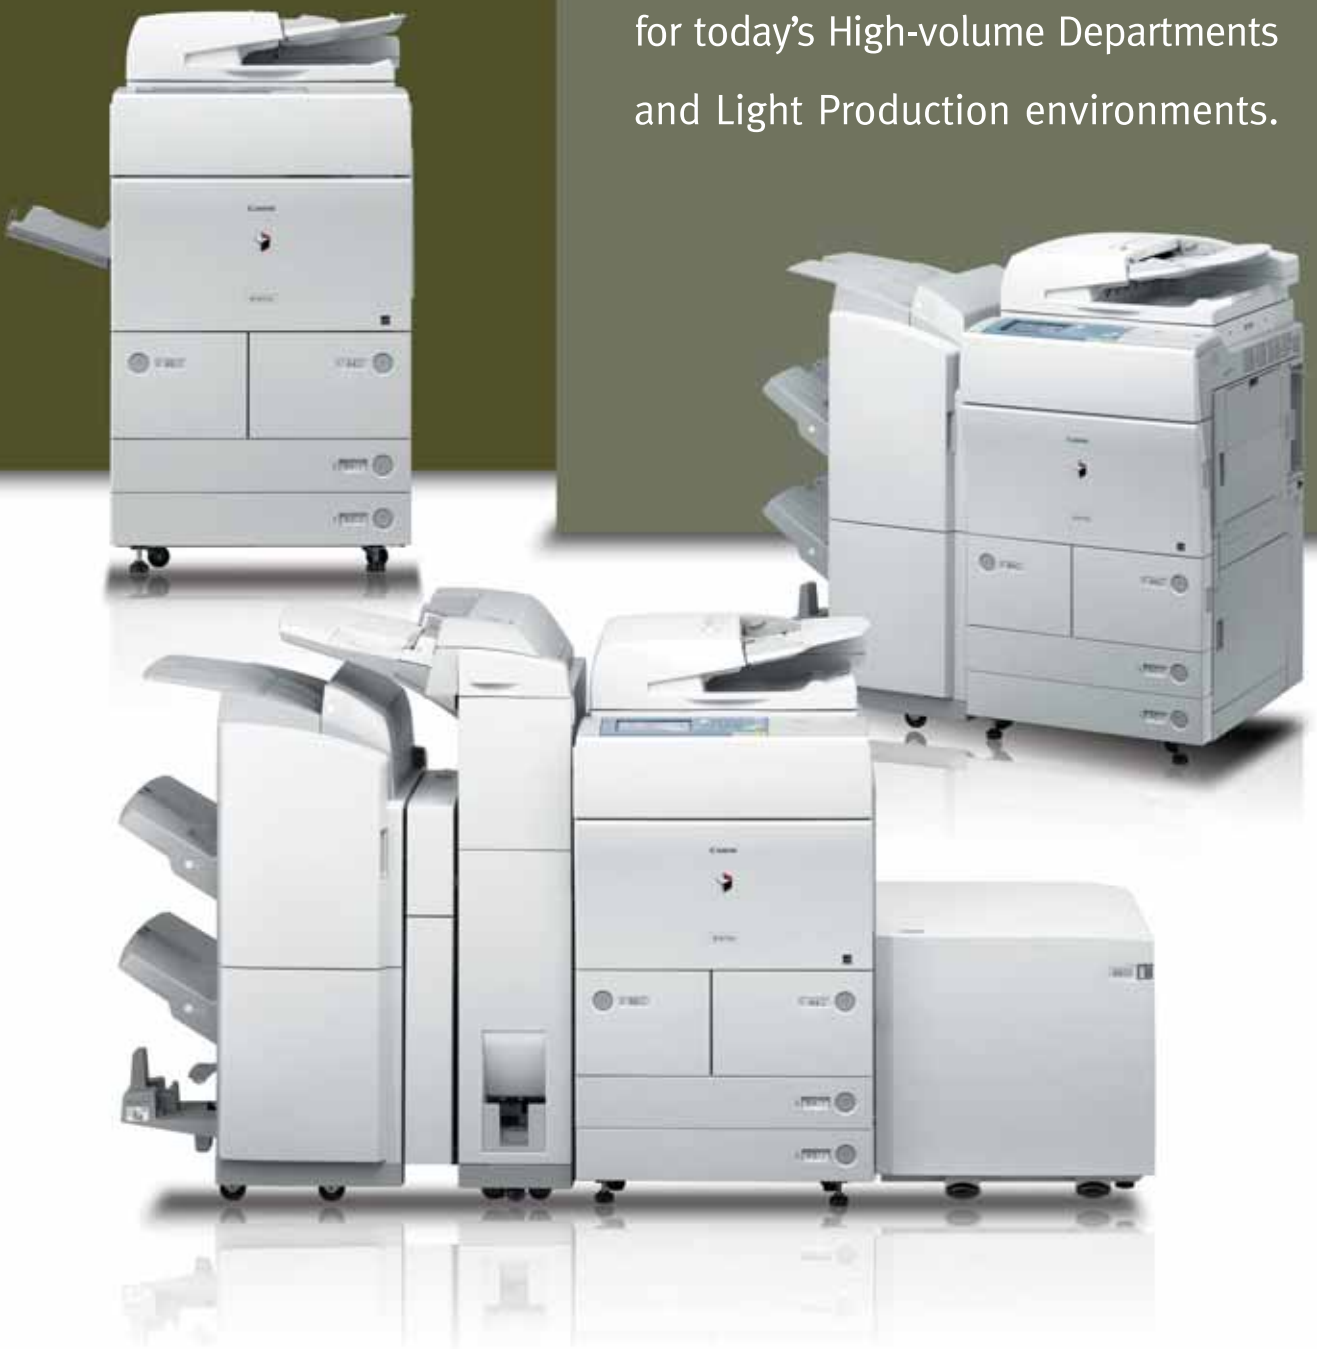

INCORPORATING THE LATEST SECURITY FEATURES

With increasing competition, pressure to maximize efficiency and optimize costs while meeting higher demands from customers, businesses and organisations need the latest technology to keep ahead in the industry.

The multifunction features of the imageRUNNER 5055/5065/5075 series, which include powerful print controller options and management tools, provide a seamless connection for workflow. This will result in professional print quality documents with extensive finishes while keeping information securely in the hands of authorized users.

The imageRUNNER 5055/5065/5075 series offers a full range of document handling options such as a Single Pass Duplex Scanner/Feeder, saddle stitch finishing, 2-hole punching, and a Document Folding Insertion Unit with the ability to “C” and “Z” fold documents.

Canon's latest imageRUNNER 5055/5065/5075 devices featuring **The Next Generation of imageCHIP System Architecture** that provides the solution to make business simple for today's High-volume Departments and Light Production environments.

Complete Your Fast-paced Workflow with ImageRUNNER 5055/5065/5075 series. Designed with a Full-range Document Handling Capabilities to **Simplify The Way You Work and Making Document Creation Process More Efficient and Simpler.**

Finest Print Quality

Canon's new generation imageRUNNER controller features high precision data writing, delivering true 1200 dpi x 1200 dpi print resolution. With Canon's Fine Character and Edge Enhancement Technology (FCET), clear, crisp text and images are ensured in each print-out.

User-friendly Full-Colour Touch sensitive User Interface

This User- interface provides quick and intuitive programming of its versatile functions at a touch, bringing you to respective print, copy, scan, send or fax modes.

Brilliant Finishing

Canon's finishing technology gives your workgroups a head-start over the competition for presentation.

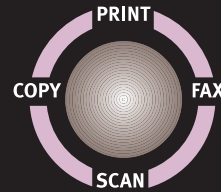

■ Durable Design in Maintaining Stable Operation.

Built on a solid prism structure frame to provide more stability and withstand heavy loads of document production, realizing high durability for heavy users in busy corporate environments.

More Efficiency and Less Waiting Time

Canon imageRUNNER 5055/5065/5075 equips with the latest Single Pass Duplex Scan Document Feeder which efficiently scans both sides of an original simultaneously at 100 impressions per minute so you can get your output faster than before.

Multi-tasking is made easy

You can carry out print, copy, scan and fax jobs anytime you want.

Uninterrupted Operation in High Volume

Equip with high capacity of 4,150 sheets as standard, expandable to a size of 7,650 sheets. You can enjoy an uninterrupted high volume job as smart features like auto paper selection and auto drawers switching features prevent disruption even after the primary paper source has depleted.

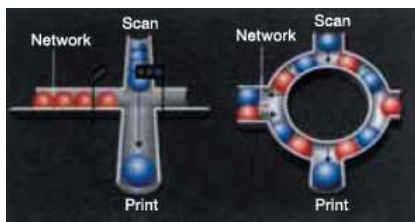

TECHNOLOGY

Be Efficient and Ready for Tomorrow

Canon infuse cutting-edge technologies to deliver high tech design, best document outputs and ergonomic functionalities, optimizes your productivity.

■ Epitome of Advanced Technology

Powered by new generation imageCHIP (Concurrent Hyper-Intelligent Platform) system architecture, the imageRUNNER realizes higher speed and efficient operation through concurrent processing. The core of the controller is a multi-task System On Chip (SOC) that employs the powerful dual CPU systems (533 MHz and 400 MHz CPUs) with expanded memory of 1GB and 40GB hard disk, image processing, data transfer and processing of multiple jobs are greatly speed up, as such, outstanding performance is achieved.

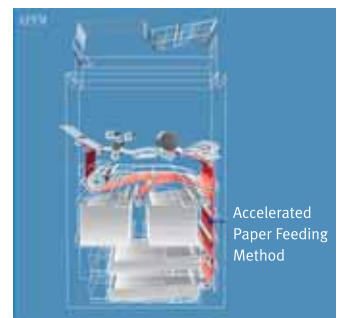

Conventional Processing

Simultaneous Processing

■ High Speed and High Image Quality

Transporting Media at optimal speed is achieved through Accelerated Paper Feeding Method (APFM), where reliable and consistent imaging is ensured at accelerated speed. Less paper jams is expected and easier maintenance is ensured.

Accelerated Paper Feeding Method

■ Improved Durability

Incorporating a highly durable A-Si drum, results in high performance over a long time period without any signs of deterioration in photosensitivity, delivering stable performance, high image quality and outstanding durability.

Environment

With Environment Constantly in Our Mind.

Canon designs multifunction devices taking both the environment and usability into consideration, aiming to reduce energy consumption when in use and ensuring ease and comfort of operation.

■ Energy Conservation

With Induction Heating Fixing Technology, the imageRUNNER is ready to print instantly, reduces high energy consumption used for warm up, thus keeping the energy consumption costs to the minimum. imageRUNNER 5055/5065/5075 is certified as international ENERGY STAR® compliant.

IH Fusion Method

■ Eco-friendly with Green Technology

Besides being energy saver, Canon has successfully developed a unique roller-charging system, which effectively absorbs and disperses the ozone through a filter delivering an ozone-free operation.

Corona Discharging and Roller Charging

■ Compliance with EU directive on RoHS (Restriction on Hazardous substance)

At Canon, we have carefully designed our imageRUNNER models with environment in mind, using non-hazardous materials and employing green technology in our devices. Rest assured that with Canon products, your business and well-being are taken care of.

PRINT

Winning Print Capabilities

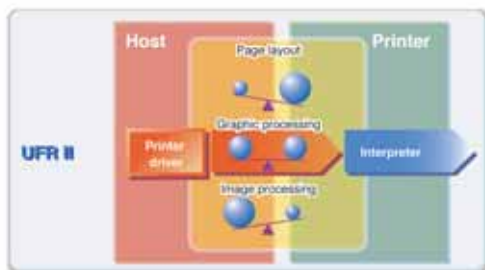

When your business demands excellence in every facets of your communications, imageRUNNER 5055/5065/5075 delivers.

■ Printing Solutions for Every Business Environment

Canon offers multiple high-performance print controllers that are developed especially for imageRUNNER 5055/5065/5075, supporting embedded PCL5e, PCL 6, and PostScript®3 emulation, plus Canon's proprietary UFR II, to deliver a higher level of productivity and best image quality across various networking environments, including Windows and Mac OS platforms.

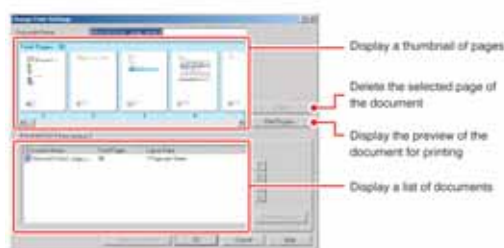

■ Achieving Speedy Printing by Load Balancing Technology

Canon's proprietary Ultra Fast Rendering II (UFR II) is designed to maximize data processing between a PC and the iR machine through innovative load balancing technology. UFR II delivers stable output and offers the optimal output performance.

■ Ease of Combining Multiple Documents

With Canon's Page Composer you can merge documents from different Windows applications (such as Microsoft Word™, Excel™, PowerPoint™, PDF™ etc) into a single electronic document, from the comfort of your desktop. You can delete, duplicate and preview your job before printing out.

PageComposer Window

■ Delivering Exceptional Printing Performance

Canon offers a powerful external print controller, the Network Multi-PDL Printer-S2 that is developed especially for genuine Adobe®PostScript 3 along with PCL 5e/6, allowing you to access to advanced options such as Hot Folders and virtual Printers®, Command Workstation and EFI® for management of complex workflows with automated job queuing.

■ Safeguard Documents from Unauthorized Access and Reproduction

With optional **Encrypted Secured Print**, documents are encrypted before sending over the network, decrypted and will print only after the correct password is entered on the device.

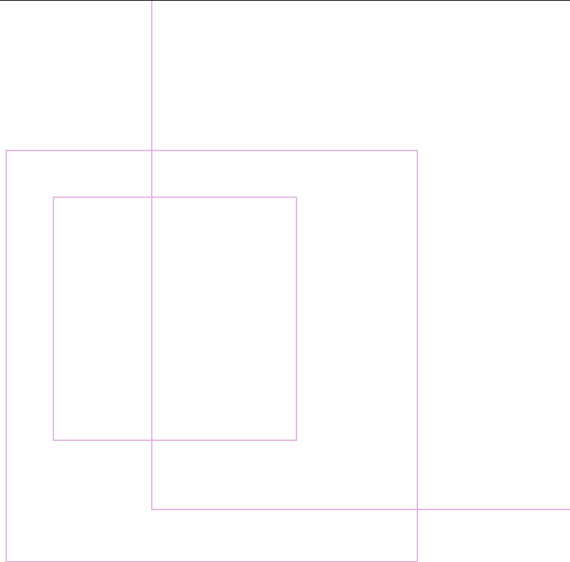

Encrypted secure print

■ Direct Web Browsing and Printing at your Convenience

The optional Web Access function effectively transforms imageRUNNER 5055/5065/5075 into information retrieval kiosks where you can view websites and print out directly without the use of computer at your convenience.

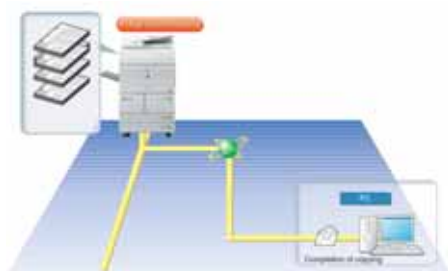

■ Scan-Once-Print-Many

Fully leverages the inherent digital features of the device by making copies from the images stored in the memory, reduce in scanner wear and tear. The device also supports **Copy Reservation** up to 20 jobs which means jobs are scanned and queued while another job is currently printing.

■ In Control of your Time

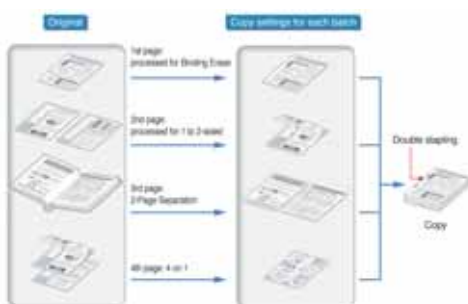

An email notification will send to you once copy or send job is completed, allowing you to attend to other matters, instead of waiting at the device, especially when there are many print jobs involved.

Scan-Once-Print-Many & Job Done Notification

■ Sophisticated Copying Simplified with Job Block Combination

Empower you to scan multiple batches of originals with different copy settings and copy them as one document at a breeze. Additional special settings such as finishing and page numbering can be specified across the entire copy job in advance, delivering professional and business-like output customized to your preferences without a sweat.

■ Express Operation for Easier Execution of Copy Jobs

A large clear colour touch LCD panel serves as a data access terminal to call up a full range of operations, with user friendly menu tree for easy selection. An option to switch to Express Copy screen which brings you to customized job buttons for frequently used functions.

Simple

Express

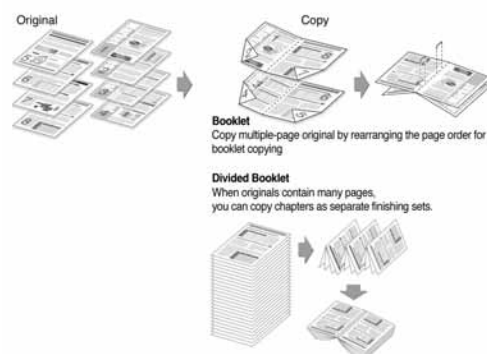

■ Avoiding Unauthorized Duplication of Confidential Documents

You can imprint a forced watermark such as CONFIDENTIAL, DRAFT, FOR INTERNAL USE, etc on the document. This effectively helps you to control any unauthorized duplication of copies.

■ Booklet Creation

Simply create professional quality paginated booklets, multi-paged pamphlets, catalogues, newsletters with sophisticated finishing features in-house, eliminating the need for outsourcing and manually paginating each page.

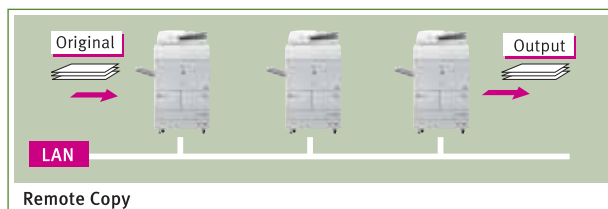

Versatile Copying Capabilities

Leading Image Processing Technology with Uncompromised Business Performance

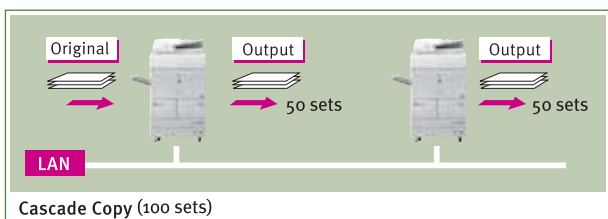

Engages Remote Copying For Faster Distribution

Reduce your document delivery cost and time - scanned documents can be sent directly from one multi-functional printer to another via the network for printing effortless with remote copying. It can be in different rooms, floors or buildings.

Rushing with a Large Copy Job?

With Cascade Copying, the job can split between two multi-functional printers at the same time via network, completing the whole job at a faster time frame.

Start Copying after Confirming the Copy Sample – Avoid Costly Mistake

It is a considerable waste of time and paper to find copying errors after large volume is complete. The Sample Set mode allows you to copy sample in advance to see how the output results before making multiple copies of a particular document.

Harness the Power of Print-on-Demand

Streamline document storage tasks with powerful **Mailbox** feature – forms and documents. Each mailbox can be personalized with user names and passwords. You can store up to 2,000 documents in 100 Mail Box. The new **Copy and Store** feature allows execution of multiple tasks in a single step while ensuring the original is automatically stored.

Storing Data Safely

Routing documents electronically speeds up administrative processes and avoids endless printouts. Use the Mailbox feature to store documents securely before printing, protecting all your important company information.

Precise Printing

Contents of the document can be previewed and displayed from the control touch panel, allowing you to verify and confirm the content of the document before printing, thus avoid misprinting.

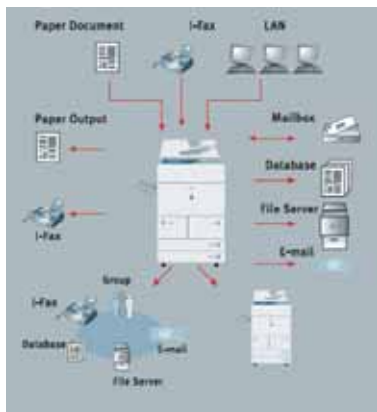

UNIVERSAL SEND/FAX

■ Superior Communication

Digitalize paper documents and send them through email, Internet fax or file servers with Universal Send.

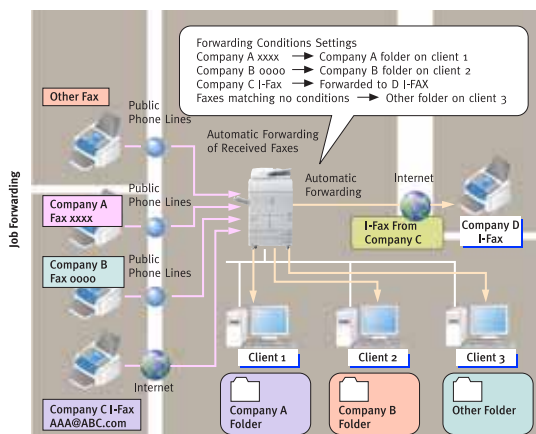

Simply scan originals and transmit them electronically to multiple destinations in a single operation. This eliminates the cost of distributing hard copy documents- saving time, money and space.

Universal Send

■ Never be Out of Reach from Important Documents or Information.

With **Job Forwarding**, incoming faxes can automatically route to other devices, destinations, destinations or database for remote reception where you would like to retrieve.

■ Sending with Speed and Accuracy

Having problems remembering fax numbers and email addresses? Use the LDAP feature to access email addresses directly from the company server through imageRUNNER.

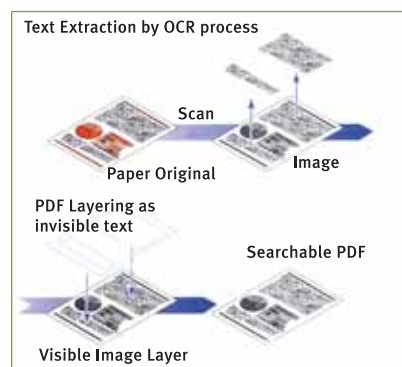

■ Web-Based Document Collaboration

Team members can communicate from remote locations by scanning and securely sending documents from imageRUNNER to a shared storage service via WebDAV (Web-based Distributed Authoring & Versioning) protocol. You can easily access to stored documents from outside of intranet.

■ Searchable PDF for Reduce Search Time

Simply process documents through powerful PDF creation engine and perform full-text search or transfer to a word processing application for data manipulation with ease.

Superior Communication

Connect with the rest of the world

■ Secure Digital Documents

Prevent impersonation, unauthorized alteration or interception of your documents with **PDF Security Feature**.

Protect the contents of your documents with **Encrypted PDF feature*** by simply securing them with a password to restrict access, editing and printing.

With optional **Digital Device Signature** mode, recipients can be assured of the originating device of documents.

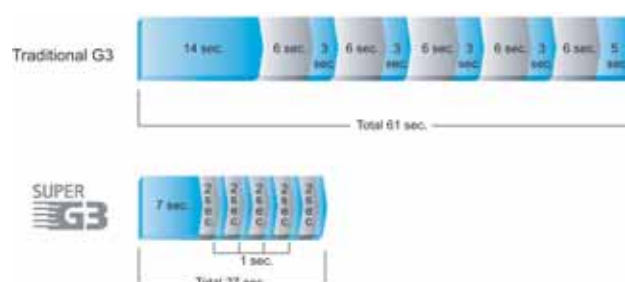

The **Digital User Signature** option enables verification of your identity to recipients by adding your digital certificate to your documents.

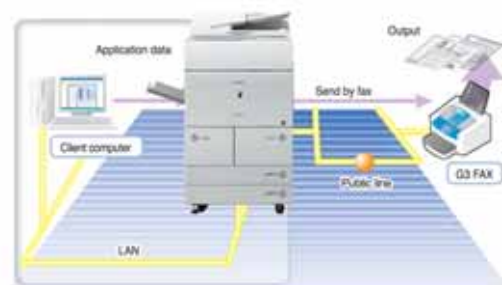

■ Get High-speed Faxing with Canon's G3 Fax Technology

Less amount of time is needed to send a large volume scan job with optional Super G3 fax function. You can enjoy a faster transaction speed at 33.6kbps, this significantly reduces the transaction and telephone line charges while increasing your work productivity and efficiency with lesser amount of time spend on faxing.

■ Ideal for All Forms of Communications

With PC fax, you can easily send your data directly from your PC without the need to print on paper before faxing. Greatly reduce paper wastage and image degradation.

■ Huge Address Book

The address book has a high capacity memory that can store up to 1,800 destinations. You can register up to 5 LDAP servers which allow you to search for email or fax addresses.

COST AND DOCUMENT MANAGEMENT*

*imageWARE Office Suites**

Improve your personal workspace with Canon's imageWARE Office Suites* to Capture, Manage, Distribute & Publish your data.

■ Capture Important Information

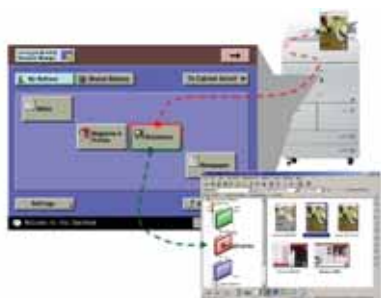

Canon's **imageWARE Scan Manager** can convert high volumes of documents into digital data quickly and easily. Important details on the documents can be captured. Manual labour costs, which relates to scanning and document indexing can be greatly reduced.

■ Physical Paper Reduction and Storage

Documents, either in paper or electronic form, make up the information base of most companies. Canon's **imageWARE Document Manager** is designed to reduce or replace traditional hard-copy document storage methods in general office environments, supporting applications for retrieval, archival, and records management.

Paper documents can be saved directly into **imageWARE Document Manager** with a single touch of the button on your Canon imageRUNNER. In addition, faxes can also be sent and stored into different folders based on the incoming fax number. This can be achieved with the smart solution - **imageWARE Document Manager Client for MEAP**.

■ Document Creation Made Simple

High quality, professional-looking documents will add more influences to important documents. Save time and money, simply use Canon's **imageWARE Publishing Manager** for a fast, affordable in-house colour publishing system. Now you can create professional-quality booklets, catalogues, brochures, and more with sophisticated finishing features in-house right from your desktop.

■ Cost Efficient Monitoring

Imagine how much more efficient your organization would run if you could easily monitor the usage of a multifunctional device? **imageWARE Accounting Manager for MEAP** is a simple job accounting application which keeps detailed records of all printing, copying, scanning and faxing handled by Canon MEAP enabled imageRUNNER. In addition, the application can break down information based on user names, giving you a precise indication of each employee's machine usage.

*All imageWARE applications are sold separately.

■ Maintaining a Access Control Environment

Administrators can restrict printing, copying, faxing, or e-mailing documents through password through three levels of authentication: Department ID Mode, SDL (Simple Device Log-In), and SSO (Single Sign-On). These restrictions aid in maintaining a tight information security environment.

■ Restriction of Access to Device Functions

Optional Access Management System allows administrator to manage control access by login authentication but also to specific device functions each user can perform, such as forced duplexing, 2-on-1, print, copy or scan with specific settings.

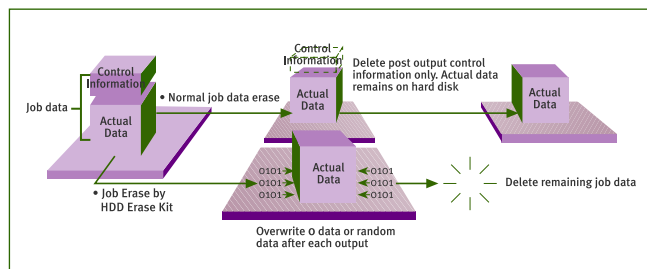

■ Protect your Crucial Information

Multi-function printers are just like PCs as such they provide a gateway to network and of which hard drives retain large amount of information. With the proliferation of Multi-function printers, the security risks these products pose to the network increases. Optional hard disk encryption and hard disk overwrite security provides added protection for your office.

For highly sensitive environments dealing with classified data, the HDD Data Encryption option encrypts all the information before writing to the hard disk. Rest assured that your documents are well-protected in the hard disk.

With optional HDD Data Erase Kit, information is completely erases traces of previously stored data in hard disk in a single step permanently, thus preventing any information leakages.

HDD Data Erase Kit

■ Managing Accessibility

- Remote Operation Support

Empower you to operate the device from any networked computer or laptop by emulating the device's control panel. In fact, you can access your imageRUNNER at all times through the web utility to manage and view print status.

- Voice Guidance Support

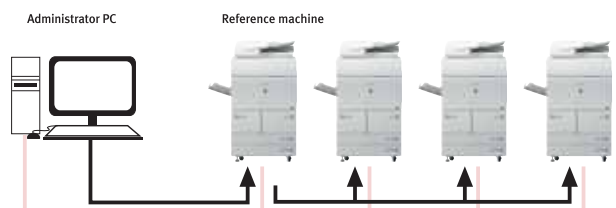

Provide visual impairment users audible job confirmation through voice synthesis technology during the copy process.

■ Centralized Management of Multiple Machines

Device Information Delivery Function

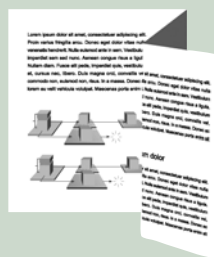

You can manage and maintain multiple imageRUNNER devices along your corporate network infrastructure by setting up one of devices as the host machine to deliver the same information to the other devices connected over the network. This effectively saves time & effort of registering information for all.

Advanced Finishing Offers

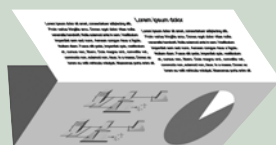

Greater Flexibilities and Choices.

As the expectation for better presentation increases, Canon has come up with sophisticated finishers to provide collate, group, corner and double stapling, hole-punching, saddle-stitching, cover insertion, Z-fold and C-fold options, giving you a wide range of choices at your disposal. The imageRUNNER 5055/5065/5075 series enables fast turnaround of critical documents while ensuring the integrity and confidentiality of new product designs.

Z - Folding

Eg. Catalogue, brochure, menu, etc.

C - Folding

Eg. Restaurant menu, direct mails, etc

- Handles a wide range of paper media and paper weight
- Create more engaging and professional documents by adding more eye-catching full-colour cover to the black-and-white document with Folding Insertion Unit-F1.
- Supports high volume stacking, versatile 50-sheet stapling and professional saddle-stitching booklet-finishing
- Folding Insertion Unit F-1 provides professional in-house finishing capabilities like Z-fold and C-fold (inner 3 folds), allowing you to create excellent pamphlets and catalogs.
- Hole-punching option allows you to punch sets of documents for easy binding and filing.
- High paper capacity of up-to 7,650 allows you to enjoy un-interrupted operation and maximum up-time.

SPECIFICATIONS imageRUNNER 5055/5065/5075

Main Unit

Type:	Monochrome Digital Multifunctional Imaging System
Imaging System:	Laser Dry Electrostatic Transfer System
Developing System:	Dry Mono Component Toner Projection
Fixing System:	Induction Heating Fusing System
Image Server Memory:	Standard 1GB RAM/ 40GB HDD
Max. Copy Reservation:	20 Jobs
Max. Mail Boxes Supported:	100 Users Inboxes, 1 Memory RX Inbox, 50 Confidential Fax Inboxes
Network Interface Connection:	10/100Base-TX (RJ – 45)
First Copy Time:	3.3 seconds or less (iR5055/5065) 3.1 seconds or less (iR5075)
Warm-Up Time:	30 seconds or less (A4)
Copy Speed:	
iR5055:	55 ppm (A4)
iR5065:	65 ppm (A4)
iR5075:	75 ppm (A4)
Resolution:	
Scan	600 dpi x 600 dpi
Copy	1200 interpolated dpi x 600 dpi
Print	True 1200 dpi x 1200 dpi
Halftone:	256 Gradations of Grey
Paper Sources (80gsm):	
Standard	Dual Front-loading Paper Drawers (1,500-Sheets each) Dual Front-loading Paper Cassettes (550-Sheets each) 50-Sheets Stack Bypass 3,500-Sheets Paper Deck (7,650 Sheets Max.)
Optional	
Acceptable Paper Sizes:	
Paper Drawer 1 & 2	A4 and B5
Paper Drawer 3 & 4	A3, B4, A4, A4R, B5, B5R and A5R
Stack Bypass:	A3, B4, A4, A4R, B5, B5R, A5R and free size (99mm x 148mm – 297mm x 432 mm)
Acceptable Paper Weights:	
Cassettes	64 – 200 gsm
Stack Bypass	64 – 200 gsm
Multiple Copies:	1 – 9999
Magnification:	25 to 400%
Dimensions (H x W x D):	1207mm x 643mm x 743mm
Weight:	Approx. 215kg
Power Supply:	220-240V AC, 50/60Hz
Power Consumption:	2.3 kW maximum
Toner:	48,000 pages (at 6% coverage)
Drum Yield:	Amorphous Silicon
Estimated Yield:	3,000,000 impressions

Standard Accessories

Single-Pass Duplex Scan Document Feeder

Acceptable Originals:	A3, B4, A4, A4R, B5, B5R, A5, A5R or B6
Capacity:	100 sheets (80 gsm)
Paper Weights:	
1-sided scanning:	42 - 128 gsm
2-sided scanning:	50 - 128 gsm
Original Scanning Speed:	Up to 100ipm (A4@300 dpi, 2-sided)

Optional Accessories

PRINT CONTROLLERS

UFR II Printer Kit-R1

Type:	Embedded
PDL Supported:	UFR II
Resolution:	1200 dpi x 1200 dpi
Operating Systems Supported:	Windows®(2000/XP/Vista/Server 2003), Macintosh®OS (10.2.8 later)

PCL Printer Kit- R1

Required:	UFR II Printer Kit-R1
Type:	Embedded
PDL Supported:	PCL 5e/6
Resolution:	True 1200 dpi x 1200 dpi (PCL6) 2400 interpolated dpi x 600 dpi (PCL5e)
Operating Systems Supported:	Windows®(2000/XP/Vista/Server 2003)

PS Printer Kit-R1

Required:	UFR II Printer Kit-R1 + PCL Printer Kit-R1
Type:	Embedded
PDL Supported:	PS 3 Emulation
Resolution:	True 1200 dpi x 1200 dpi
Operating Systems Supported:	Windows®(2000/XP/Vista/Server 2003), Macintosh®OS

Network Multi-PDL Printer Unit-S2

Type:	External
CPU:	Intel® Celeron®D @ 2.8GHz
System:	System 8e
Memory:	256MB RAM (Standard) 512MB RAM (Maximum)
Hard Disk Drive:	80GB (Standard)
Interface Connections:	10/100/1000Base-TX (RJ-45)
PDL Supported:	Adobe PostScript™3, PCL 5e/6
Resolution:	True 1200 dpi x 1200 dpi (PCL 6/ PS 3) 2400 interpolated dpi x 600 dpi (PCL 5e)
Network Operating Systems:	Windows®(2000/XP/Vista, Server 2003), Macintosh®OS (10.2.8 later)
EFI Options:	Hot Folders and Virtual Printers, Impose v2.6

Universal Send Kit -F1

Sending Methods:	E-mail, I-Fax, File Server (FTP, IPX, SMB, WebDAV), User Inbox
Address Book Capacity:	Max. 1,800 (Includes 200 One-Touch Buttons) Max 5 LDAP Servers
File Format:	TIFF, PDF, Optional PDF (OCR), Encrypted PDF, Digital Signature PDF (Device, User)

Super G3 Fax Board-Z1

Applicable Line:	Public Switched Telephone Network (PSTN)
Connection Lines:	One Line

Paper Deck-AD1/AE1

Paper size:	
Paper Deck-AD1:	A4, B5
Paper Deck-AE1:	A3, B4, A4, A4R and B5
Paper Capacity:	3,500 sheets (80 gsm)

Finisher-AD1/ Saddle Finisher-AD2

Number of Trays:	3
Tray Capacity:	
Non-collate Mode,	
Tray A:	250 Sheets (A4, B5, A5R) 125 Sheets (A3, B4, A4R, B5R)
Tray B:	1,300 Sheets (A4, B5, A5R) 650 Sheets (A3, B4, A4R, B5R)
Tray C:	2,450 Sheets (A4, B5) 1,700 Sheets (A5R) 650 Sheets (A3, B4, A4R, B5R)
Collate and Group Mode,	
Tray B:	1,300 Sheets (A4, B5) 650 Sheets (A3, B4, A4R)
Tray C:	1,700 Sheets (A4, B5) 650 Sheets (A3, B4, A4R)
Staple Mode	
Tray B & C:	1,300 Sheets/ 100 sets (A4, B5) 650 Sheets/ 50 sets (A3, B4, A4R)

Max. Stapling Capacity	
Corner, Double Stapling:	50 Sheets (A4, 80 gsm)
Saddle-stitching:	(Available on Saddle Finisher-AD2)
Available Saddle Stitch Capacity	
A3, B4, A4R:	15 Sheets (64 - 80 gsm) 10 Sheets (81 - 90 gsm)
Folding:	V-Fold
Attached Accessories:	Document Folding Insertion Unit-F1 Puncher Unit-A51

Folding Insertion Unit-F1

Number of Trays:	1
Insertion Tray Capacity:	100 Sheets
Acceptable Paper Weights:	
C Fold/ Z Fold:	64 - 105 gsm
Document Insertion unit:	64 - 256 gsm

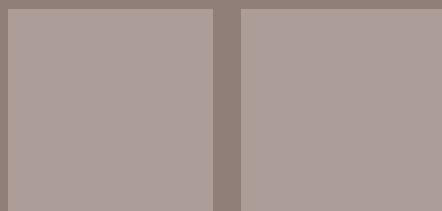

Acceptable Paper Sizes:	
C Fold:	A4R
Z Fold:	A3, B4, A4R
Document Insertion unit:	A3, B4, A4, A4R, B5, B5R
Folding Method:	Roller Pressure Folding

Puncher Unit-AS 1

Paper Size:	A3, B4, A4, A4R, B5, B5R
Punch Type:	2 Holes
Acceptable Paper Weights:	64 gsm to 200 gsm
Puncher Waste Tray Capacity:	Approx. after 10,000 sheets

Additional Optional Accessories

Encrypted Secure Print Software-C1	Expansion Bus-D2
Web Access Software- F1	Copy Tray-L1
Universal Send Searchable PDF Kit-A1	Shift Tray-D1
