**Direct Mode**

**Smooth Brightness Adjustment**

**Conventional Projection**

Remarkable 1920 x 1200 pixels of detail and XEED WX6000's 1440 x 900 pixels of clarity.

Discover a world of high-resolution projection with XEED WUX6000's and XEED WX6000's.

XEED WUX6000, XEED WX6000 and XEED WUX5000

**LCOS Install**

**Exceptional Picture Performance**

**Burn-in Resistance**

The new LCOS panel's resilience enables XEED WUX6000 and XEED WX6000 to project sharper images continuously for up to 100 hours* without "burn-in": a phenomenon where bright areas appear to be "ghosted" over dark patterns.

*May vary depending on usage.

**3D-LUT and 6-axis Colour Adjustment**

Enhance the accuracy of RGB colours mapped to a device's colour space with the 3D-LUT (Look-up Table) via a new colour processing algorithm. Using brightness parameters, users can adjust brightness, hue and saturation levels independently of one another.

**Burn-in Resistance**

Choose from four different interchangeable Canon lenses ranging from a short fixed to an ultra-long zoom for XEED WUX6000.

Choose from five different interchangeable Canon lenses ranging from a short fixed to an ultra-long zoom for XEED WUX6000.

**Flexible Projection & Setup**

**Interchangeable Lenses and Built-in Motorised Lens Shift**

With the Network Multi Projection function's 4 different connection modes for a variety of settings, users can easily share and project data from a single PC to up to 10 projectors simultaneously.

**Network Multi Projection**

With the Network Multi Projection function's 6 different connection modes for a variety of settings, users can easily share and project data from multiple sources via a network.

360° Installation

These install-projectors support all-angle screening, making it perfect for showcasing images at events, shows and amusement parks.

Advanced Image Technologies

**Professional Settings & Features**

**Edg Blending**

Adjust the number of overlapping pixels and brightness when 2 or more images are projected side by side from multiple projectors.

*Only applicable to XEED WX6000.

**Network Multi Projection**

With the Network Multi Projection function's 6 different connection modes for a variety of settings, users can easily share and project data from multiple sources via a network.
