High Volume
Printing at Low
Cost Per Print

Up to **6,000** B/W pages
Up to **7,000** colour pages

Refillable
Ink Tank System

Integrated see-through
ink tanks contribute to a
compact printer body and
allow users to view remaining
ink levels at a glance.

Spill-Resistant
Ink Bottle Design

The bottle tip and secure screw
cap is designed to prevent
spillage, making your ink tank
refilling sessions easy and
mess-free.

High Quality
Documents
and Photos

PIXMA Ink Efficient G Series
printers deliver sharp black
text and quality borderless
photos up to A4.

Specifications are subject to change without notice.

¹⁾ Ink droplets can be placed with a pitch of 1/4800 inch at minimum.

²⁾ Document print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734. Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer.

Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.

³⁾ Paper types NOT supported for borderless printing are as follows:
Envelope, High Resolution Paper, T-Shirt Transfer, Photo Stickers

⁴⁾ TWAIN driver (ScanGear) is based on the TWAIN specification V1.9 and requires the Data Source Manager that comes with the operating system.

⁵⁾ Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.

⁶⁾ Colour document scan speed is measured with ISO/IEC 29183 Target A. Scan speed indicates the time measured between pressing the scan button of the scanner driver and the on-screen status display turns off. Scan speed may vary depending on system configuration, interface, software, scan mode settings and document size etc.

⁷⁾ Copy speeds are the average of sFCOT and sESAT, ISO/IEC 29183. ADF copy speed is the average of ESAT in General Performance Test for the default simplex mode. ISO/IEC 24735, excluding time to copy the first set. Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc. and does not take into account warm-up time.

⁸⁾ Black & white document fax transmission speed is based on default setting using ITU-T No.1 chart. Colour document fax transmission speed is based on default setting using Canon Colour Fax Test Sheet. Actual transmission speed may vary depending on document complexity, fax settings at receiving end, and line conditions etc.

⁹⁾ Page count is based on ITU-T No.1 chart or Canon FAX Standard Chart No.1.

¹⁰⁾ Page Yield is the estimated value based on Canon individual test method using the ISO/IEC 24712 chart and continuous printing simulation with the replacement after initial setup.

Note:
All printers work in Operating Environment of Temperature: 5 - 35°C; Humidity: 10 - 90 % RH (no dew condensation).
All printers work in Storage Environment of Temperature: 5 - 40°C; Humidity: 5 - 95 % RH (no dew condensation).

Refillable Ink Tank Wireless All-In-One with Fax for High Volume Printing

- Compact Design:**
Integrated ink tank system

Borderless Photo Printing:
Up to A4 size
- Mobile Printing:**
Canon PRINT Inkjet/SELPHY, Canon Print Service, Mopria™, AirPrint™

Cloud Printing:
PIXMA Cloud Link, Google Cloud Print™

- Document Removal Reminder**
Automatically detects a document left on the scanner platen, and emits a warning sound with a notification to the LCD display.
- ID Card Copying**
Enables the scan and copy of both sides of an ID card onto a single printout.
