SHARE YOUR PASSIONS WITH THE WORLD

Self-shooting is easier and greater fun than ever with the new LEGRIA mini compact personal video recorder that is perfect for showcasing your talents and passions to the world. Incredibly slim and lightweight, the LEGRIA mini sports a tiltable 2.7-inch capacitive touch panel LCD, built-in adjustable stand, an ultra wide angle lens plus lots of really cool shooting features such as Fast & Slow Motion Recording, and Mirror Image Recording.

LEGRIA mini

01

Your Best Performance Captured with High Quality

12.0 MEGA
PIXELS
STILL IMAGE RECORDING

Combining the efforts of a 12.0-Megapixel High-Sensitivity CMOS Sensor and DIGIC DV 4 Image Processor, the Canon HS System delivers excellent low-light performance, ensuring minimal noise and clear images in videos and photos captured by the LEGRIA mini.

02

Intuitive 'Place & Shoot' Operation

Touch Panel

Detect Orientation

2.7-inch Vari-Angle
Touch Panel LCD

Build-in stand

Detect Orientation

Take video-shooting to a new level with flexible and hands-free shooting! The LEGRIA mini's 2.7-inch Vari-Angle LCD flips on parallel hinges and lets you shoot at low or high angles, and even self-shoot.

A built-in stand that can be adjusted to various angles. Even when you shoot with the camcorder inverted, Detect Orientation automatically rotates the image during playback.

The LEGRIA mini is equipped with a capacitive Touch Panel for you to easily switch between video and photo shooting. It is also great fun to navigate on its simple user interface with touch gestures.

Fast
Motion

Interval
Recording

Mirror Image Recording / Playback

Slow / Fast Motion Recording

Your videos can be a great practice aid with the Mirror Image Recording/ Playback feature. The image is flipped horizontally and you can perfect your moves, learn complicated steps, and review your progress through playback.

Add dynamism to your videos by varying the pace with Slow Motion and Fast Motion Recording. Slow Motion recording is at a minimum speed of 1/4x (VGA)* while Fast Motion goes up to a maximum speed of 4x**.

Another cool creative shooting feature is Interval Recording that creates an effect similar to time-lapse videos. The camcorder captures still images or half-second video clips at preset intervals and then plays it back like a flipbook. This feature is perfect for recording slow-changing movements over time.

*Two slow motion speeds available: 1/4x (VGA) and 1/2x (720P)

**Two fast motion speeds available: 4x and 2x

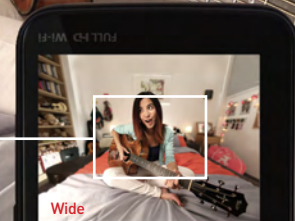

Ultra
WIDE
Angle Lens

The LEGRIA mini's Ultra Wide Angle lens lets you capture almost the entire scene even in tight spaces or close distances, as it provides a 160° angle of view in videos and 170° in still images. Simply touch on the screen to switch between wide angle and close-up views.

Close-up

Wide

04

Make the World Your Stage

The LEGRIA mini lets you record your talents anywhere and at any time as it is incredibly compact, lightweight and slim enough to simply slip into your pocket. At a mere 160g for its body only, it is your new shooting must-have on road trips, outings, holidays, at home, in your car, and when you take the stage!

Splashproof Case SP-V1

An optional Splashproof Case SP-V1 ensures the LEGRIA mini performs just as great in wet conditions, allowing you to enjoy shooting fun in the rain, at a pool party, by the beach, or even capture your first snowfall!

OPTIONAL

05

High Fidelity Audio for Superb Videos

High quality
MicrophoneAudio Scene
SELECT

Outstanding videos are made even better with excellent audio and the LEGRIA mini comes equipped with a high-quality built-in stereo microphone to capture the true sounds of your talents.

Audio Scene Select further makes it easier to record audio based on your scene – Standard, Music, Speech, Forest and Birds, and Noise Suppression – to obtain the crystal clear audio that best suits your video.

06

Instant and Easy Sharing with Everyone

CANON

07

Live Streaming & Remote Shooting

CameraAccess
App

App for iOS or Andriod device

Enabled by its built-in Wi-Fi, you are able to stream live video and audio that your LEGRIA mini is recording from a remote position on your iOS or Android device by using the CameraAccess app*. You can also remotely operate the camcorder through the app, which is great for capturing wildlife videos, shooting self-videos or record your pet's antics.

*Compatible with iOS version 5/6 or later or Android version 2.3/4.0 or later for selected devices
